

b1_6 Acceptance-small.sh Testing

By Yep
Mar.2008

Content

❖ Status

- ✓ Test environment
- ✓ Test frequency
- ✓ Bugs overview (table 1&2)

❖ Problems

- ✓ Booking testing node
- ✓ Issues before testing
- ✓ Reproducing old bugs

❖ Improvement proposal

b1_6 Status

(from 20 Oct. 2007 until now)

❖ Test environment

- ✓ Distros
- ✓ Arch
- ✓ Cluster config

b1_6 Status

(from 20 Oct. 2007 until now)

- ❖ Test frequency:

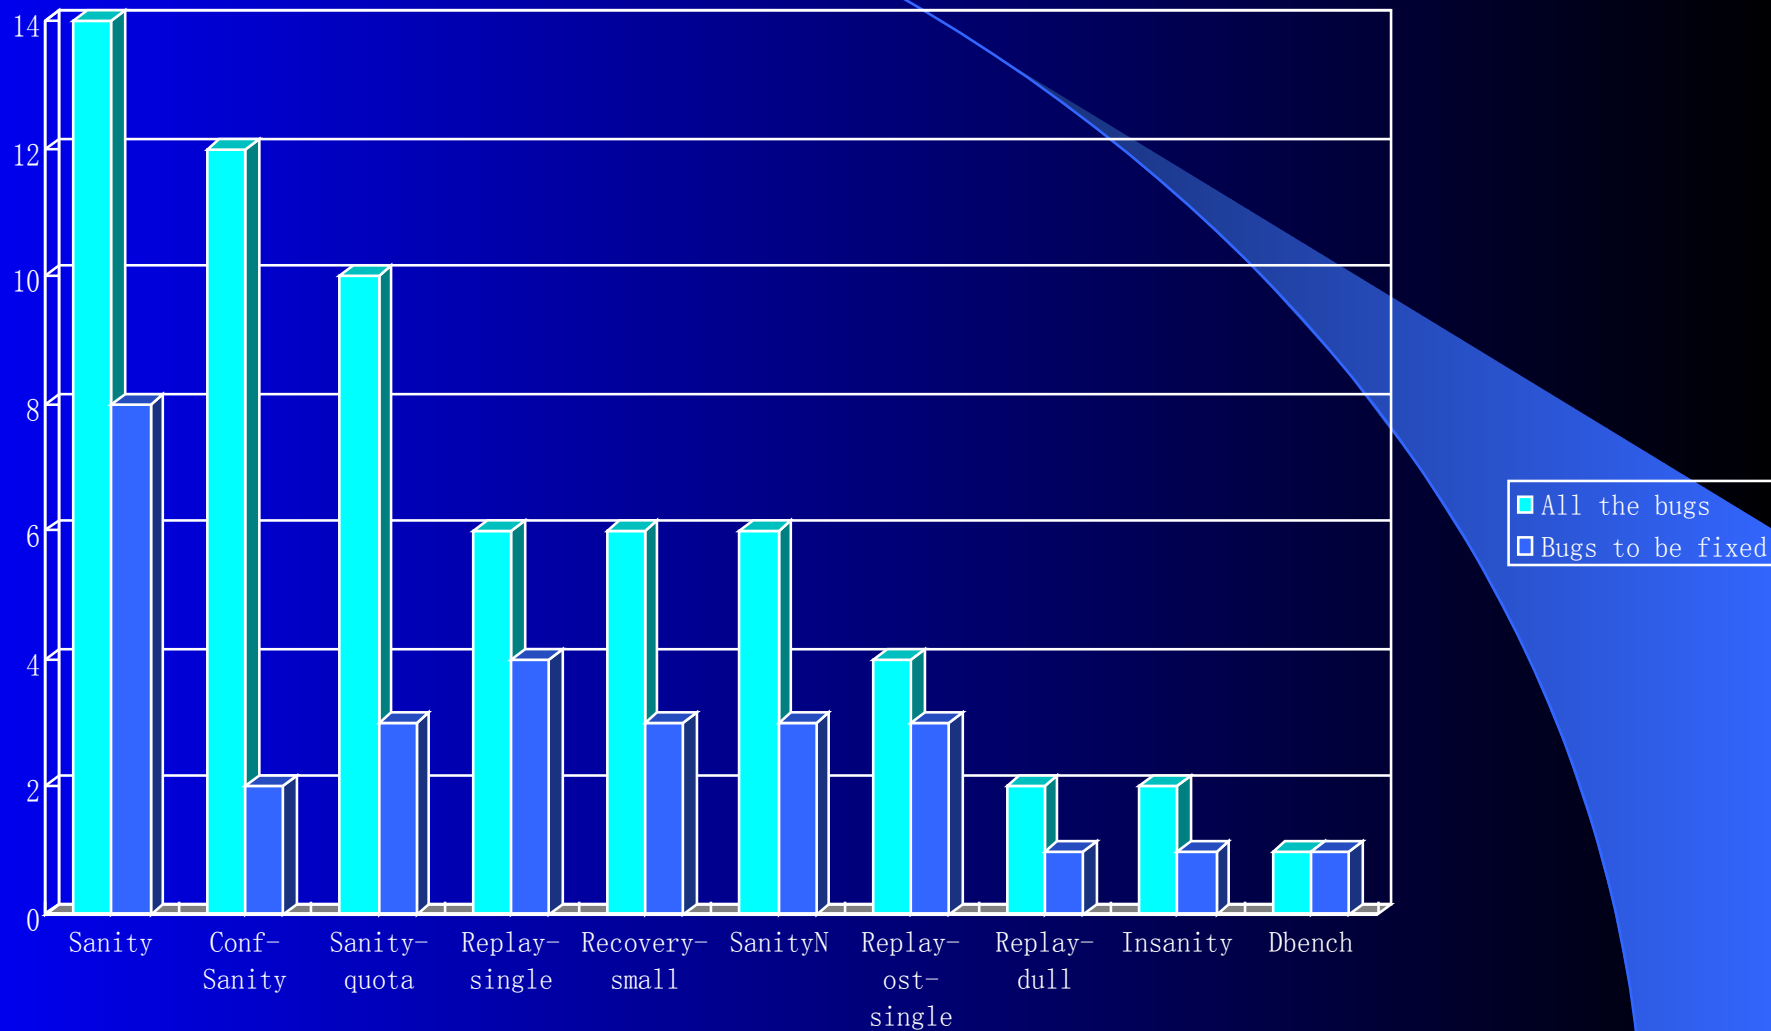

At least, each distro/arch can be tested once for each 12 testing cycles.

b1_6 Status

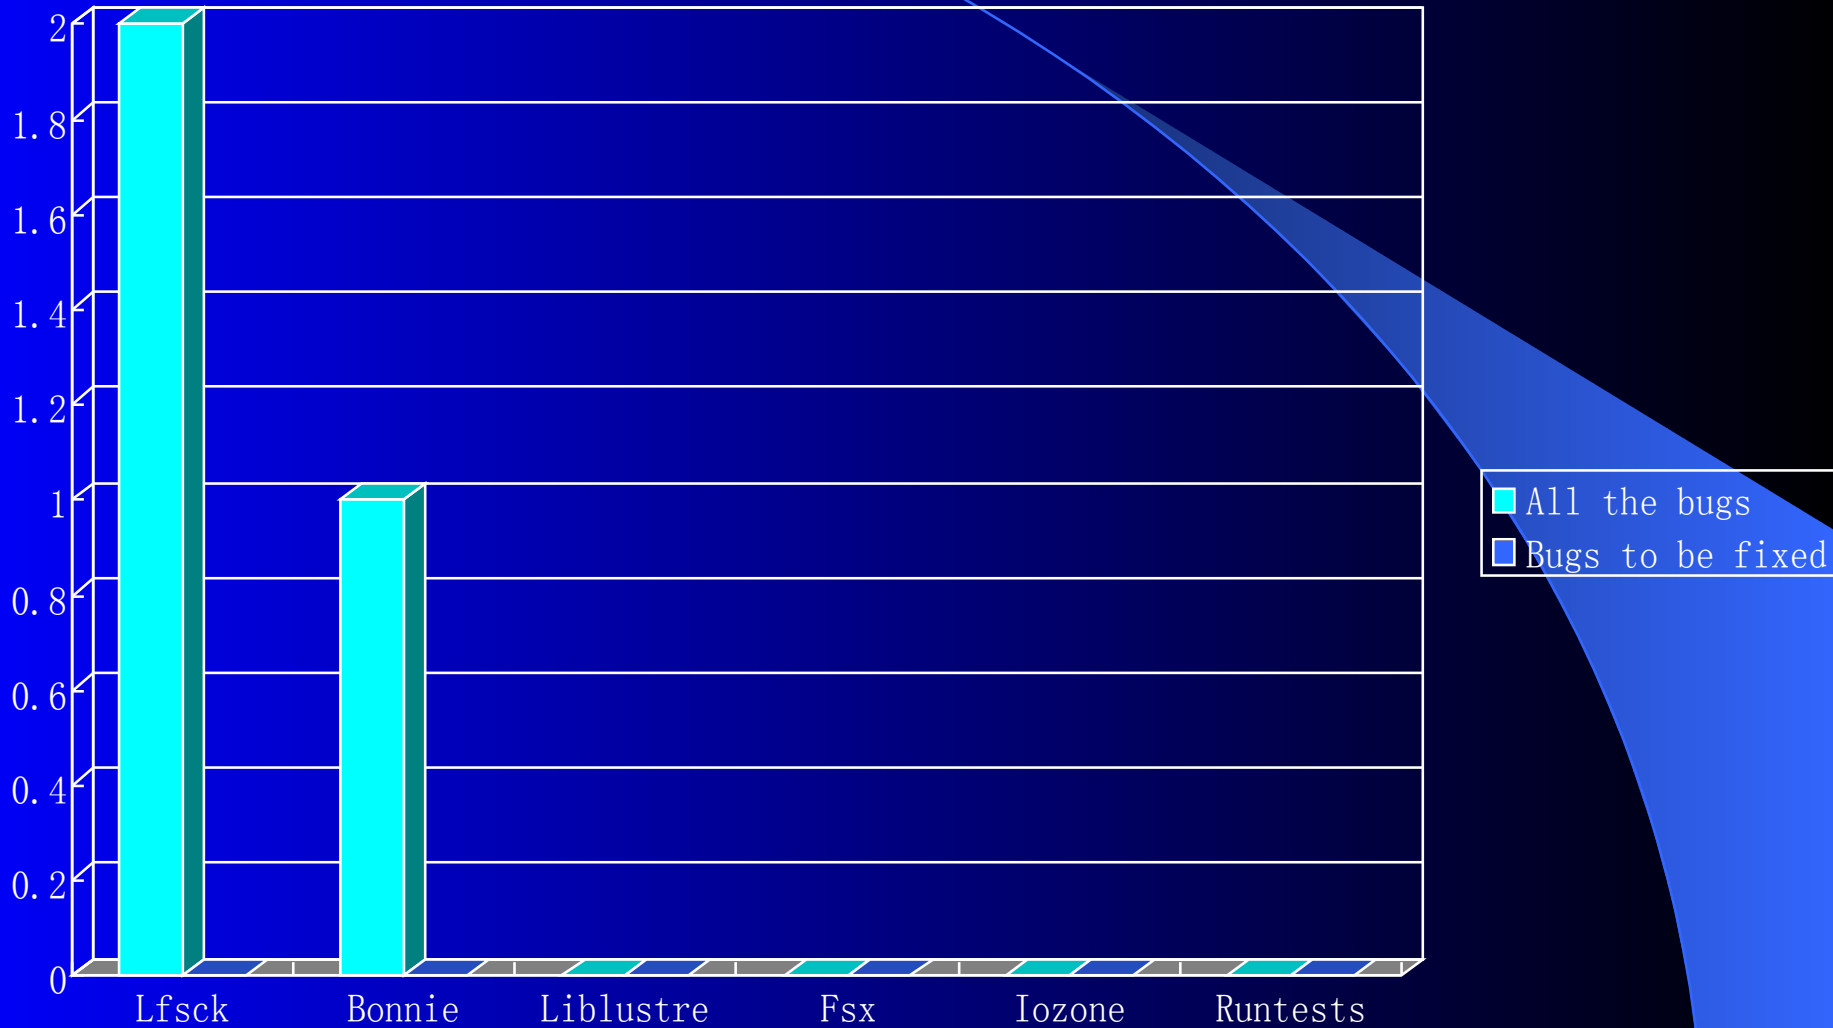

(from 20 Oct. 2007 until now)

- ❖ Bugs overview (about 5 months)
 - ✓ The bugs I've encountered are 67 in total.
 - ✓ At present, the bugs to be fixed are 37.

Bugs overview (table 1)

Bugs overview (table 2)

Problems

(from 20 Oct. 2007 until now)

- ❖ Booking test node
- ❖ Issues before testing
- ❖ Reproducing old bugs

Improvement Proposal

- ❖ Dividing 100 PCs into 1 unit/group, 2 units/group, 3 units/group or other units/group according to the different testing requirements
- ❖ Equipping special testing PC cluster group for IB testing (if IB cards are enough)
- ❖ Adding the compiling function of rpm package including ib2ib driver into LBATS
- ❖ Optimizing the documentation

Thanks for your attention!
